EPIC® MC Module: 10pole stamped

The mixed assembly guarantees high flexibility. For applications in machine and plant engineering, for robotics and slide-in technology.

The 10-pole module with pressed contacts ensures the high flexibility connector, thanks to multiple functions. It can be used, for example, in investment construction.

Info
Suitable for processing with contacts on reel
for automated production with crimping machine

Supplementary automation components from Lapp

Mechanical and plant engineering

Wind Energy

Benefits
The mix of different functions in one plug guarantees high flexibility
Assembly of individual connectors, suitable for different applications

Application range
Plant engineering
Printing machines
Control engineering
