| Valid from: <br> 20.07 .2018 | ÖLFLEX $^{\circledR}$ ROBUST FD |  |

## Application

ÖLFLEX ${ }^{\circledR}$ ROBUST FD are high flexible power and control cables for flexible use and fixed installation for normal mechanical load conditions. They are also suitable for use in dry, damp or wet areas. They are suitable for outdoor use if the indicated temperature range is observed. At room temperature, they are largely resistant to the effects of acids, alkalis and oils, as well as greases and plant-, animal-, mineral- or synthetic-based waxes.
They are especially suitable for increased requirements (Extended Line) in power chains and in permanently moved machine parts. They are suitable for linear, automated movements. The maximum tensile load is $15 \mathrm{~N} / \mathrm{mm}^{2}$ of conductor crosssection during installation and operation. Compulsory guidance is not permitted.
All materials used are halogen-free.
Application range:
machine tool building, medical technology, laundries, car washing equipment, chemical industry, composting plants, sewage works, particularly in wet areas of machine tools and transfer lines, food and beverage industry, especially for production and protection and processing equipment of milk and meat productions

## Design

| Design | based on <br> EN 50525-2-51 resp. VDE 0285-525-2-51 |
| :--- | :--- |
| Conductor | extra fine wire strand of tinned copper acc. to IEC 60228 resp. VDE 0295, <br> Class 6 |
| Core insulation | TPE compound P4/11 <br> Core identification |
| acc. to VDE 0293-1, with or without GN/YE ground conductor |  |
| black cores with white numbers acc. to DIN EN 50334 resp. VDE 0293-334 |  |$\quad$| cores with short length of layer stranded, nonwoven materials taping over outer |

| Colour: black, similar RAL 9005 |

## Electrical properties

| Nominal voltage | $\mathrm{U}_{0} / \mathrm{U}:$ | $300 / 500 \mathrm{~V}$ |
| :--- | :--- | :--- |
| Test voltage | core / core: | 4000 V AC |

## Mechanical and thermal properties

Min. bending radius

Bending cycles and power chain operation parameters

Temperature range

Halogen-free
UV-resistance

Ozone resistance
for flexible applications:
fixed installation:
See Selection Table A2-1 in the appendix of our online catalogue
For use in power chains: Please comply with assembly guideline Appendix T3
for flexible applications: $-40^{\circ} \mathrm{C}$ up to $+105^{\circ} \mathrm{C}$ max. conductor temp. fixed installation: $\quad-50^{\circ} \mathrm{C}$ up to $+100^{\circ} \mathrm{C}$ max. conductor temp.
acc. to VDE 0472-815
acc. to EN ISO 4892-2, method A (change of colour allowed)
acc. to EN 50396 resp. VDE 0473-396, method B
up from $7.5 \times$ cable diameter at temperatures $<70^{\circ} \mathrm{C}$ up from $10 x$ cable diameter at temperatures $\leq 105^{\circ} \mathrm{C}$ $4 \times$ cable diameter
