

EPIC® H-A 3 TG

Innovative metal and plastic housing design

Locks reliably, does not burn, and protects the internal insert from dust and moisture: these are just three of the essential features of our newly revamped rectangular connector housing. The lightweight polyamide hood is also halogen-free, UV-resistant and has an M20 thread for connecting a cable or conduit gland.

Info

The hood of the EPIC® H-A 3 series is now available with a new design, including a marking arrow and an M20 thread.

Mechanical and plant engineering

Mechanical resistance

Robust

Waterproof

Benefits

The EPIC® H-A 3 series comprises the smallest housings in the heavy-duty industrial connector range and ensures secure connections in the smallest of spaces.

The hood housing is mateable with many commercially available housings (panel-mount base, surface-mount base or coupler hood housings).

With threaded hole for use with a corresponding cable gland.

Articles with a "V" in the article name already contain a SKINTOP® plastic cable gland for sealing and strain-relieving cable entry.

In comparison to housings where the cable gland is added separately, the overall size of this housing is more space-saving.

The arrow as a new design element on the surface of the housing is easy to feel and simplifies plugging in spatially confined and possibly poorly visible application areas.

Application range

To protect the connector insert from environmental influences.

EPIC® H-A 3 TG

For use with many EPIC® rectangular connector inserts.
For connecting devices and machines to the power supply.
Suitable for outdoor use.

Product features

Hood
Bolts for single lever
Straight cable entry
Versions with / without cable gland

Technical Data

Classification ETIM 5:	ETIM 5.0 Class-ID: EC000437 ETIM 5.0 Class-Description: Housing for industrial connectors
Classification ETIM 6:	ETIM 6.0 Class-ID: EC000437 ETIM 6.0 Class-Description: Housing for industrial connectors
Material:	thermoplastic, grey, black Lever: zinc-plated steel
Protection rating:	IP 65 (latched) NEMA 250, UL50E: 12, 4 (latched)
VDE-tested:	Certified production control: VDE-REG. no.: B437 UL-tested: UL File Number: E75770
Temperature range:	-40 °C to +100 °C, short-term up to +125 °C
